Audio file

Upload an MP3 or WAV file.
Keep it under 100mb for best results.

Choose File   No File selected.

2. Choose a memorable clip

3. Review the automatic transcript

Save Progress

Please play the clip and edit the transcript as needed. Click on any word to make changes.

Google what you think your customers are searching for. Now, the average buyer, consumer, B2B person, is going to consume 10 to 12 pieces of content before making a buying decision. So if you don't come up in search, it's all for nothing. You need to make sure that you are coming up in search, and that you are optimizing your digital properties. Okay? This is a test.
